

Cod. 140Z

ОПИСАНИЕ

Multifunctional UTTO lubricant specifically for transmissions, hydraulic systems, wet brakes of tractors, farm machinery and construction equipment of last generation.

ХАРАКТЕРИСТИКИ

It enables high performance for all types of gearboxes, in particular of those automatic due to its 10W-30 viscosity grade and to its particular formulation.

- | High anti-wear properties of the gears and mechanical components of the transmission
- | It enables high performance of the hydraulic system thanks to a high viscosity index
